

INTRODUCTION & VISION

The right talent changes everything.

NextJobSolution is a recruitment consultancy focused on connecting companies with people who fit the role and the ambition behind it.

Our vision: hiring that feels more personal, more precise, and easier for everyone involved.

OUR TEAM

Experience behind every conversation.

Our talent acquisition team has hired and worked with organizations across technology, services, and healthcare.

TCS

Accenture

Capgemini

Strawberry Infotech

Sun Pharma

These names describe our team members' prior work and hiring experience, not NextJobSolution clients or endorsements.

RESUME PARTNERSHIP

IN PARTNERSHIP WITH **ResumeVibe**

Helping candidates present their best work.

ResumeVibe helps candidates build clean, ATS-friendly resumes. Its optional AI tools support clearer writing and tailoring for specific roles.

01**Free resume builder**

Edit a resume and export a clean PDF.

02**Job-fit comparison**

Review how resume text aligns with a job description.

03**Optional AI help**

Get support for writing, tailoring, and importing.

04**Human judgment**

Recruiters and employers make the hiring decisions.

ResumeVibe currently focuses on software engineering resumes. ATS-friendly formatting does not guarantee interviews or placement.

OUR WORK ETHICS

Quality over volume. People over process.

We aim to send relevant, considered profiles and keep both sides informed at every stage.

01 Understand the role

Clarify skills, responsibilities, team context, and hiring priorities.

02 Search and screen with care

Review experience, motivation, and alignment before shortlisting.

03 Communicate clearly

Coordinate interviews, feedback, and next steps with respect for everyone's time.

Respect for candidates

Clear expectations and thoughtful conversations throughout the journey.

Care for employers

Recommendations backed by a clear understanding of the requirement.

LET'S CONNECT

Let's build what comes next.

Share your hiring requirement or tell us about the career move you're looking for.
